Proceeds this year will benefit Lewistown Hospital's Pediatric Patients and the Education Department.

Proceeds this year will benefit Lewistown Hospital in two areas: Purchase of additional syringe pumps. Syringe pumps are the safest way to deliver high risk medication to infants and children. Using syringe pumps for all Intravenous medication to our youngest patients insures the best way to control and monitor the medication received by the patient.

Purchase of materials for our Simulation Training Lab. Simulators are ideal training tools for health care professionals because they mimic real-life situations that medical staff encounter. High risk situations can be practiced in a safe learning environment, improving teamwork and communication.
